WORK EXPERIENCE

Oct 2026 - Present

AI Data Analyst Working Student

IBM (Red Hat), Munich

- Serve as the primary driver for the adoption of AI tools within the team.
- Extract and analyze data to drive the GTM team's regional decisions and strategy.

Mar 2026 - Sep 2026

Program Manager Working Student

Amazon, Munich

- Consolidated 10 million data records into one SQL campaign dashboard, enabling 24/7 monitoring across Amazon's grocery portfolio.
- Managed 15+ Amazon funded campaigns end to end, including Prime Day, averaging 20% YoY new customer growth.
- Cut WBR prep from 6 hours to 15 minutes by using Claude Code workflow to synthesize dashboard data and meeting transcripts into Monday reports.

Aug 2025 - Feb 2026

Product Manager Intern

Amazon, Munich

- Built a model prioritizing 30 vendors by cost impact over defect count, guiding sprints that delivered \$250K in Q4 savings.
- Automated a weekly supplier scorecard for delivery, defect, and compliance metrics, improving on time delivery 15% among the 10 lowest scoring suppliers.
- Shipped an AI search assistant for a 1,500 file knowledge base, cutting time to find operational metrics by 80%.

Sep 2024 - Feb 2025

Program Manager Working Student

Campus Founders, Heilbronn

- Led 150+ surveys and 20+ interviews, informing a recruitment shift toward bachelor students that grew next cohort applications from 60 to about 210.
- Standardized PRDs across 5+ program teams using Confluence templates and SOPs, replacing fragmented reporting and roughly halving creation time.
- Led operations for two Corporate Campus Challenge cohorts with 4+ partners, 12 teams, and 30+ participants each, earning Porsche's interest in returning.

Jul 2023 - Oct 2023

Product Manager Intern

VEON, Astana

- Redesigned the signup flow through iterative A/B tests, cutting onboarding from five steps to two and lifting new user conversion 15 percent.
- Ran usability sessions and mapped friction points, generating 9 product hypotheses, with six translated into changes shipped to production.
- Partnered with backend and frontend engineers to automate analytics dashboard deployment, cutting setup time from one day to 10 minutes.

EDUCATION

Oct 2026 - Present

M.Sc. in Management and Technology

Technical University of Munich (TUM), Germany

- Major in Computer Science, Minor in Entrepreneurship

Oct 2023 - Sep 2026

B.Sc. in Management and Technology

Technical University of Munich (TUM), Germany

- Major in Economics, Minor in Digital Technologies
- Thesis on AI adoption in the workplace (grade: 1.3; 1.0 = best)

PROJECTS

May 2026 - May 2026

Software Engineer

HappyRobot (Hackathon), e2e AI sales agent orchestration

- Architected HappyRobot agent workflow: branching call logic backed by Python FastAPI backend.
- Integrated cognee and Unipile via authenticated REST webhooks with JSON schema validation

Aug 2022 - Jul 2023

Campus Ambassador

Google Developer Student Clubs (GDSC), Astana chapter

- Grew chapter membership from 100 to 325 in four months through campus outreach and Figma and Framer workshops for 80+ attendees.
- Led 7 organizers delivering DevFest 2023 to 500+ attendees, 55% more than the prior year.

RESEARCH EXPERIENCE

Apr 2025 - Aug 2025

Student Research Assistant

TUM School of Management, Economics Department

- Automated student data extraction and cleaning with SQL, then performed statistical analysis in Python to support faculty research.
- Reduced research preparation time by approximately 40% using LLM tools to accelerate literature reviews and qualitative data synthesis.

SKILLS

Product & Delivery

- PRDs, product prioritization, Agile/Scrum, Jira, Figma

Analytics & Research

- SQL, Python, A/B testing, funnel analysis, metric definition, user interviews, usability testing, Mixpanel

AI & Automation

- RAG, Agent Harness, LLM workflow design, Claude Code, workflow automation (n8n), Gemini, Codex, Cursor AI

Languages

- English (C1), German (A2), Russian (Native), Kazakh (Native)

CERTIFICATIONS

Sep 2026

Anthropic | Claude Certified Associate (CCAO-F)

Feb 2026

Google | Google Analytics Certification

Sep 2025

Amazon | Agentic AI - Essential Concepts for builders

Aug 2025
